EXAMINER'S AMENDMENT

1. Claim 21 is allowable. The restriction requirement among species, as set forth in the Office action mailed on April 13th, 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 29-31, directed to species IV, are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim. However, claims 1-13, 16-20, and 35-51, directed to species I-II and V-VI, remain withdrawn from consideration because they do not all require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claims 1-13, 16-20, and 35-51 directed to species non-elected without traverse. Accordingly, claims 1-13, 16-20, and 35-51 have been cancelled.

Art Unit: 2627

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Manus on April 9th, 2007.

The application has been amended as follows:
